Date: **16th January 16, 2012**

VICE CHANCELLOR'S NEW YEAR MESSAGE (2012)

The Vice-Chancellor of ESUT, Professor Cyprian Onyeji has commended all staff for their support and teamwork in 2011 which have contributed to reposition ESUT on the path of true academia.

Professor Onyeji expresses optimism that with the continued co-operation of each and every member of the University Community we shall build on the gains of 2011, this year.

While welcoming all members of ESUT Community back to work in 2012, the Vice-Chancellor stresses, that priority attention will continue to be paid to pursuit of academic excellence, in addition to staff development, training and welfare.

He says that efforts will not be spared to encourage scholarship amongst our students while their security and welfare will continue to be of paramount importance.

Professor Onyeji while urging all staff to strive to give a further boost to the image of our dear University, warns that Management will be very strict in handling of cases of academic and or professional misconduct, including any form of "sorting", collecting money illegally from students for whatever reason or under any guise, admission racketeering, colluding with students to defraud the University etc.

The Vice-Chancellor further warns that any staff caught indulging in any case of academic and ethical misdemeanor will be suspended and sent to the Disciplinary Committee.

While expressing gratitude to God for the new ESUT, Professor Onyeji wishes all staff, a productive and fruitful 2012.
